

ENVIRONMENTAL POLICY

“The Company” means: CountyClean Group and subsidiaries, which are [CountyClean Environmental Services Ltd, CountyClean Waste Recycling Ltd.]

The quality of our environment is the foundation of the thinking of the Company.

The Company seeks to work to the highest standards that are consistent with business objectives so that employees, customers and governing bodies can have confidence in the environmental performance of the Company.

Environmental Protection

The Company is committed to the prevention of pollution and will limit, to the lowest practicable level, the negative environmental impact of its business activities through the promotion of resource conservation, waste reduction and the pursuance of material reuse, recycling and recovery prior to the application of other waste management practices.

Compliance

The Company will operate at all times in accordance with relevant legislation, official guidance, professional codes of practice or the Company standards, whichever are higher.

Control

All activities that may have an environmental impact will be planned, organised and controlled by adherence to the Company Integrated Management System.

Employees

The implementation of these principles will be achieved through the commitment of the necessary resources including personnel who possess expertise, knowledge and aptitude.

External Relations

The Company welcomes the opportunity to discuss environmental issues and to increase levels of environmental awareness through the establishment of liaison companies, or similar and encouraging customers and regulators to audit our facilities.

The Company is committed to the continual improvement of environmental performance.
